Specials

We can produce special colours of our standard size ranges if required by clients.

The option of choosing existing colours in a different size format (from one of the size formats shown on page 5) is available for orders between 300m² - 500m² per SKU.

Once a selection of colour and size is made a discussion with the Production department can create an agreed approximate production date. If this is satisfactory, a proforma purchase invoice is raised for the customer.

When payment has been received the special tile order will become part of the production schedule.

If payment is delayed it will affect the production date. N&C will invoice/credit up to +/- 20% of the required quantity subject to the yield achieved in the production of the special. This will need to be paid/credited prior to deliver of the special. Allowance for up to +/- 20% in the required quantity needs to be factored into the procurement estimates/orders for specials by clients.

Specials of non standard colours

If a client requires a specific colour to be created in one of the standard sizes available this is possible.

The minimum requirement is for 300m² - 500m² of a special colour. Clients should provide a RAL reference number for the colour required and specify the size and quantity (+/- 20%) required.

A quote will then be raised for this option.

Once the quote is accepted a proforma invoice is then raised.

Upon payment the special order will then go into the production planning process. Clients will then receive a provisional planned production date for the order.

All orders may be produced +/- 20% of the original order requirement and a invoice/credit will be required for payment/credit will be required for payment/credit prior to delivery of the tiles.

All special colours are produced as the nearest possible to the RAL requirement within the limitations of reproducing a colour using the glazed tile production process.

All quotation/invoices are based on a complete delivery to one site in one delivery.

The below table shows the available stocked colours / sizes.

Other colours are available as specials (minimum quantity for specials 300-500m²)
